AUSTIN WOMEN
IN TECHNOLOGY

Austin Women in Technology was established to cultivate and nurture Austin's community of tech-minded women. This purpose benefits local businesses and individuals alike.

Businesses have the opportunity to reach an intellectual and curious audience by partnering, sponsoring, providing speakers and hosting events.

Individuals enjoy the companionship of their peers when they join and volunteer. They also experience an environment in which they can grow through opportunities to speak, lead and mentor.

For more information on how you can get involved, contact us at info@austinwomenintech.org.
